Assignment 02:

Module to be Tested : Content Creator
Browser : Google Chrome/Firefox
Website : http://staging-yantra-console.s3-website-us-east-1.amazonaws.com/
UserName/Password: testuser@yantranet.com / S4nfr4n

Description: Content Creator is incredibly simple graphic design tool that you can use for creating appealing layouts, digital flyers, and even presentations. You can create designs in 1920 x 1080 or 1080 x 1920 format with various types of regions.

How can you create a design?
1. Click on **"Create a Design"** in **"Media"** tab to start creating a design
2. To add any media files from Content Library, upload them first by clicking on the **"Upload"** button in the "**Media**" tab

Expected Submission:
● Find as many defects as possible
● Browser version used
● List down how and what did you test in a test case excel document with test pass/fail status

* You can zip the files or share a link of github/bitbucket on email
